- ☐ Person-provided context without assumptions, clinical instructions, or rights advice

Contacts and quick locations

Preferred support person:

Backup contact:

Provider/pharmacy:

Equipment/docs kept at:

Handoff notes

Use this sheet to share person-provided support context and record locations. Avoid clinical instructions, medical directions, disability-rights legal advice, or assumptions about disability.

Update reminder

Review after contact, support person, communication, mobility, accessibility, equipment, medication, allergy, assistance preference, or document-location changes.

Privacy and safety note

Organization only. Not medical advice, legal advice, disability-rights advice, clinical support instruction, or a guarantee of outcomes. Does not replace 911, EMS, clinicians, records, labels, care plans, equipment instructions, portals, legal documents, or professional guidance.
