

Assisted Living Emergency Information

Printable resident handoff for families, caregivers, and trusted contacts

Who this printable is for

For assisted living residents, family members, facility contacts, and trusted helpers.

Emergency information to organize

- ☐ Resident details, family contacts, emergency contacts, and facility contact
- ☐ Primary doctor, specialists, medications, allergies, and pharmacy
- ☐ High-level conditions, mobility, communication, hearing, vision, and equipment notes
- ☐ Where facility records, care plans, MARs, clinician records, and portals are kept
- ☐ Family handoff context without facility-policy or medication administration advice

Contacts and quick locations

Family contact:

Facility contact:

Provider/pharmacy:

Records kept at:

Handoff notes

Use this sheet to help family and trusted contacts find resident contacts and records. Do not use it as facility compliance advice, medical instructions, or medication administration guidance.

Update reminder

Review after family, facility, doctor, pharmacy, medication, allergy, mobility, communication, equipment, room, care-plan, facility-record, or portal changes.

Privacy and safety note

Organization only. Not medical advice, legal advice, facility compliance advice, medication administration guidance, or facility-policy guidance. Does not replace 911, EMS, clinicians, records, labels, care plans, facility records, MARs, portals, legal documents, or professional guidance.
