

Pulmonology Patient Emergency Information Sheet

Lung-related contacts, equipment notes, suppliers, and caregiver handoff

Use this printable to write down emergency information before it is needed.

Keep the current copy with a caregiver binder, refrigerator packet, go-bag, discharge folder, or other trusted handoff location.

Care team and contacts

- ☐ Patient name / date of birth / preferred contact
- ☐ Pulmonology office and primary care clinician
- ☐ Respiratory therapist, home health, or DME supplier
- ☐ Pharmacy and insurance information
- ☐ Emergency contact and caregiver contact

Respiratory information to organize

- ☐ Respiratory diagnoses or concerns to share from the care plan
- ☐ Medication list and allergy information
- ☐ Oxygen, CPAP, BiPAP, nebulizer, or airway equipment notes, if applicable
- ☐ Equipment model, supplier, backup power, or supply location notes
- ☐ Baseline communication, mobility, or caregiver notes

Documents and handoff notes

- ☐ Care plan, equipment paperwork, and supplier contact location
- ☐ Travel or go-bag supply notes the family wants available
- ☐ Where trusted helpers can find current instructions from the care team
- ☐ Questions to bring back to the pulmonology or primary care team
